

The press is aiding and abetting falsification of news reporting to appease and condone a violent loose-cannon administration. They went after Pres. Clinton's personal life with a vengeance; now they turn their heads in view of genocide, human and civil rights crimes; demolition of the Constitution; war-profiteering; influence-peddling; stock fraud and lying to Congress about the appropriateness of WAR. What is the matter with journalists? Have they lost their minds? The rest of the world is AGHAST, and so am I! "Local news" doesn't TOUCH THIS STUFF!! What's the matter with local news? Do they have their heads in the sand too?? Yikes!
